6 Click "Medidata"

The screenshot displays a medical record interface. On the left, there is a list of medications, with the 'Add Medication' button highlighted by a yellow circle and a hand cursor. Below this list is a 'Redact all' button. The right side of the interface shows clinical data, including 'Immunisations' and 'Bloods' sections. The 'Immunisations' section lists two events: '01 Mar 2024 - Tuberculosis (BCG) vaccination' and '01 Jan 2024 - Administration of first dose of SARS-CoV-2 vaccine'. The 'Bloods' section shows 'HbA1c' data for '01 Apr 2024', with a value of 'Haemoglobin A1c level - IFCC standardised, 56 mmol/mol'. Below this is a section for 'Additional contextual information' with a text area for 'Further information related to this section'. A 'Folge.me' logo is visible in the bottom right corner of the interface.

Instruction

Sensitive information instructions:

- Do not include any history of sensitive conditions (e.g. sexually transmitted infections, terminations of pregnancy, domestic abuse) unless they have long term health implications and the patient consents to disclose such information.
- The signing GP must check the report for any errors and remove any references to third parties before submitting a final report.
- Do not include information about negative blood borne virus tests (HIV, Hepatitis B, Hepatitis C).
- Do not include genetic test results unless there is a favourable test result stating that the patient has not inherited a condition.

Further

Additional A full list of sensitive conditions (GP Summary Exclusion Code Lists) can be found [here](#).
